About Us

SRE Tech Solutions is a Minority and Woman-Owned IT services firm built on resilience, innovation, and purpose. Founded by a woman who turned personal challenges into a vision for empowerment, SRE Tech was created to prove that determination and expertise can break barriers and drive meaningful change. We specialize in Agile-driven software development, IT modernization, cybersecurity, and IT staff augmentation, delivering solutions that are secure, scalable, and mission-focused. Our leadership team brings decades of experience supporting government and enterprise clients, ensuring every engagement meets the highest standards of performance and compliance.

At SRE Tech, we go beyond technology. We drive transformation. We integrate emerging technologies such as artificial intelligence, automation, data analytics, and Zero Trust Architecture to help our clients modernize legacy systems, deploy cloud solutions, and strengthen cybersecurity. What sets us apart is our human-centered, results-driven approach combining technical excellence with integrity and collaboration to empower organizations to achieve lasting impact.

Core Capabilities

Application Development
End-to-end application development from discovery to sustainment using Agile, DevSecOps, and Human-Centered Design. We deliver secure, scalable, and accessible solutions aligned with mission goals

IT Managed Services
Comprehensive Tier 1–3 Helpdesk and Infrastructure Management services with proactive monitoring, cloud operations, and lifecycle support to ensure maximum uptime and performance

Cybersecurity Support
Comprehensive Cybersecurity services including risk assessment, security engineering, vulnerability management, and incident response, supporting Zero Trust and NIST/FedRAMP compliance

Cloud Solutions
Cloud migration, modernization, and automation across AWS, Azure, and GCP, delivering secure, cost-efficient, and scalable hybrid environments

Web Design & Digital Experience
Development of accessible, responsive, and SEO-optimized websites using Drupal and WordPress, ensuring compliance standards Section 508/WCAG 2.1

IT Staff Augmentation
Rapid sourcing and deployment of skilled IT profe in software development, cloud, data, infrastructure, and cybersecurity, helping clients scale effectively

Why Choose Us?

1. **Proven Experience:** Decades of combined experience across our leadership and technical teams delivering complex IT initiatives
2. **Small Business Advantage:** Fast, flexible, and highly responsive delivery model that adapts quickly to changing client priorities and needs
3. **Certified Minority & Woman-Owned Firm:** EDWOSB, WBE(WBENC), MBE(NMSDC), supporting agencies to achieve diversity contracting goals
4. **Agile, Outcome-Driven Delivery:** Modern, scalable solutions delivered using Agile methodologies to ensure speed and measurable results
5. **Comprehensive IT Capabilities:** Services spanning software and web development, cloud solutions, cybersecurity and IT staff augmentation
6. **Commitment to Operational Excellence:** Consistent delivery of high-quality solutions backed by reliable service, standards, and client support
